LIVE, RELAX AND ENJOY.

For a quality basic spa you can plug into your household outlet and fill with a garden hose, check out our new Freeflow Spas. They're tough, durable, easy to set up and easy to move if you want to. Perfect for the vacation home, rental property, military housing or retirement living. They're not a Hot Springs Spa, but they are made by the makers of Hot Spring-Watkins Mfg. We have different sizes and options to fit your budget. Pick it out, fill it up, plug it in and start enjoying the hot tub experience!

Help Yourself Be Better By Feeling Better

The body's response to gentle, persistent heat is well documented and proven day in and out by people all over the world. More and more doctors are recommending a sauna's purifying benefits. Sauna use can help us feel better both mentally and physically.

There are many options to consider when planning your sauna. Finnleo offers simple easy to put together modular packages on up to custom cut designer rooms. If you're not sure where to begin your planning stages, stop in and talk to us about the many options available in both a traditional sauna and Infrared or both combined. We'll be pleased to help you determine what will work best for your needs and help you plan your sauna from start to finish.

Tips for Closing Your Pool

This has been a great summer to enjoy the pool but eventually it must come to an end and we must think about closing the pool down for the winter season. The safe and easy way to close the pool is to give us a call to have it professionally closed, but for the D.I.Y.ers here is a simple guideline to follow to help make it simple and easy to ensure your pool opening next spring is trouble free.

1. **Clean your pool.** Make sure you brush and clean the walls using *Off the Wall*. Vacuum the pool to remove all the debris.
2. **Clean your filter.** If you have a sand or DE filter use a good filter cleaner like *Strip Kwik* to clean oils and scale from the filter bed or grids.
3. **Balance your pool water.** Proper water balance is always important but often something people neglect to do when they close the pool for the winter. We recommend you bring a sample in for testing before putting the pool to bed because it's important to have the hardness in the proper range to prevent etching, scaling or deposits during the winter. It is also important that the pH and alkalinity be in balance to protect your pool surface and equipment.
4. **Add winter chemicals.** Add Artic Blue winter shock and Artic Blue Algae Protector. It is also helpful to add an enzyme product, like BioGuard Natural Result to protect against waterline buildup during the winter months and BioGuard Scale Inhibitor. Circulate for 24 hours.
5. **Lower the water level in the pool below the returns.** Unless your pool can circulate with the water level below the skimmer do not lower the level if temperatures are below freezing until the morning of the closure.
6. **Evacuate water from the lines and equipment.** Add rubber expansion plugs to prevent water from getting back into the lines. Cover pool.

*Test the pool every couple of weeks until the pool freezes to make sure a chlorine residual is maintained. Add liquid shock (Hasa Clor) if needed.

To set up your pool closure please call:

1-800-876-4340

or

509-928-6585

Ask for Jordan,
Ryan,
or Tyler

Pool was not winterized properly resulting in a cracked filter tank and plumbing lines.

Lay-away for Spring Installation

If you are considering a pool renovation, new liner, pool pump, filter, heat pump, automatic cleaner or any other large items for your pool and would like to plan in advance and prepare for early installation in the spring/summer of 2013 do a LAYAWAY and get on the service books. Lock in 2012 pricing and be one of the first to get their project done and ready so your swimming season isn't interrupted. Make monthly payments during the fall/winter to help pay down your final balance so it isn't such a large chunk out of your wallet all at once upon completion of your project!

Call us today to discuss your plans and arrange for a FREE Estimate!

Extreme Protection ... Superior Performance

Tired of fishing your cover out of the pool each spring because debris and water pulled the cover into the water? Tired of looking at the mess in your yard or worrying about your children, grandchildren or pets falling into the pool during the winter months? CoverLogix pool covers are an attractive and functional addition to your pool. An addition many people consider one of the best investments they have made for their pool. They provide peace of mind by creating a protective barrier that keeps everything out of the pool, including mother nature. Enjoy the comfort of knowing you can open your pool with ease and find clean water waiting to start the summer months.

* See special on previous page.

Is Your Tub's Cover Costing You Money ?!!

Did you know that the insulating value of your hot tub cover is the biggest factor in minimizing your tubs heating costs? Don't let your hot tub cover run up your energy bill. If your cover weighs about 200 lbs., making it difficult to use your tub, it's time for a new cover. The cover has lost it's insulating value and is costing you more money on your energy bill.

If your cover puddles when it rains that normally means your cover has broken or bowed foam cores. This is a good indication that your cover needs replacement. If the cover's hinge is torn, heat is escaping and that costs you money.

A bad odor coming from the cover, makes enjoying your time in the hot tub far less enjoyable and indicates you need a new cover.

A good cover makes a big difference in your hot tub experience. Give us a call or stop in today to order a replacement cover.

Reasons to Insist on Sunstar

1. Steel Reinforcement for extra foam strength.
2. Tapered Foam Core.
3. Vapor Seal Wrap to help prevent mildew.
4. Exclusive GHSG Super Heat Seal Gasket.
5. Energy Efficient Virgin Foam Cores.
6. Triple Reinforced Tie-Down Straps.
7. Super Strength padded handles.
8. Double stitching on cover for extra strength.
9. 4 layers of vinyl in the Tough "n" Sturdy Hinge.
10. 28 Points of Internal Reinforcement.
11. Marine Grade Vinyl.
12. Full 3 Year Warranty on materials & workmanship.
13. UL classification with ASTM Safety Standard.

Best Grill for Northwest Winters...

If you love to grill, you can enjoy grilling year round on the Big Green Eggs. These grills are so well insulated they're easy to get up to temperature and they retain the heat well, even in our cold winter climate!

The Egg is also a very versatile grill. You can sear a great steak, slow cook a tender brisket or even bake a loaf of bread. For fantastic flavor bake a pizza using your Egg. Vegetables - corn, potatoes, mushrooms, onions - and even desserts are superb. You can cook everything that you need for an entire meal. Your foods won't dry out and the natural juices stay locked in because of the ceramic moisture retention. The Eggs are easy to start and easy to control the temperature maintaining accuracy within a few degrees.

Bon Appetit Magazine wrote that "Music has Deadheads. Football has Cheeseheads. And BBQ has Eggheads. Their mantra goes something like this ... It's foolproof, fuel-efficient, and can cook anything from fish and steak to pizza and pie. You have to get one. Now."

Start Spreading the News!!

Tell your friends and family how much you enjoy your Hot Spring, Tiger River, Caldera spa or swimming pool from Pool World and if they mention your name as they become the proud owners of a new spa or pool, we'll Thank You with a \$100 gift card and they will receive \$100 off their purchase. Water Testing

Protect your pool. Don't put your pool into hibernation before bringing a water sample to be tested for the overall balance. Your pool water can damage your pool's finish or liner if not properly balanced when you close it.

Use a clean plastic container and take sample from 18" down in pool and away from the pool returns. Bring the sample in for testing within 2 hours from taking sample from pool. Do not let sample sit outside or in a hot car for any length of time.

Where Have Our Crews Been Working Lately?

Riverview Retirement located at 1801 East Upriver Drive, near the Avista Utilities Office is building an Aquatic Fitness Center. Riverview's history is rich with innovation. They have been on the forefront of improvements in retirement services and this new facility will be another commitment to quality retirement care. We have been selected to build a new 4 Lane Lap Pool, Therapy Pool and Spa for the facility.

The 75' x 28' Lap Pool will feature a Resistance Walking River which will allow users to build up their strength. The Lap Pool has a 60' Access Ramp. The Therapy pool will also have a 60' Access Ramp which will make entry easy, a CounterSwim Jet System, therapy benches and built in therapy rails. A custom Hydrotherapy Spa will be built up 18" from ground level to make entry easy for the residents. All the pools will have a UV Light Water Care Treatment system installed on them.

Goebel Construction is the General on the project which was designed by NAC Architecture. The Aquatic Center is scheduled to be complete in May of 2013 and will be a welcome addition to the Spokane community.

Intelliflo Pump Saves \$\$\$'s

The energy savings received by installing a new Intelliflo pump has been at least \$100 a month for one of our customers here in Spokane. These pumps not only are energy efficient, they're also super quiet and the motors are fan cooled which allows for a longer life span. Customer satisfaction is extremely high. People are ecstatic about the savings and love how quiet the pumps operate. An Intelliflo pump is just one of the many things you can do that will offer a great deal of savings while operating your pool. Why pay the power company more than you need to? Talk to us about how you can make your pool more energy efficient.

THE COVANA

... The Hot Tub Cover That Lifts Itself!!

If you've ever wished your spa cover could lift itself? Now it can. The *Covana* is an automated all in one spa cover/gazebo enclosure that rises above your spa at the turn of a key. The Covana spa cover is built to provide years of worry free performance and protection for your spa. It's perfect for someone having trouble lifting their standard spa cover, for instance, seniors and handicapped adults. The gazebo gives you the added benefit of being able to use your spa in adverse weather conditions with the use of protective shades and provides privacy from nosy neighbors.

If Safety is a concern, you worry about leaving your teens home alone for fear they may decide to have a hot tub party, or you've ever come home from vacation to find an uninvited guest has been enjoying your tub in your absence, you will find the Covana cover to be the answer to those concerns also. It's keyed entry provides absolute security and safety. When in the lowered position, the cover will support up to 600 pounds. Ease of use, safety, privacy, and convenience all in one! Visit our Central or Valley showrooms to see this innovative cover.
