Stress relief, without stressing your wallet. Freeflow hot tubs are built for value. Portable and easy to move, these tubs are designed to be hot and ready to use whenever and wherever you are. Plug into the joys of hot tubbing!

A hot tub can be the perfect gift for the family. A gift that keeps on giving for years and years! A hot tub provides so many benefits. Enjoy a more restful sleep, spend quality time with your loved ones, start your day out enjoying a cup of coffee and a morning soak, or relax after a long day ... the list goes on and on. Young, old and in between all enjoy a good soak in a hot tub.

SpaGuard.

Keep your Hot Tub Clean and Clear

Keep your hot tub clean this winter and help prevent having to change your water in the cold months. Clean your hot tub and filters on a regular basis preventing bacteria from forming.

Wipe your waterline weekly using SpaGuards® Spa Cleaning Mitts. Simple to grab and use while you're out at the spa.

SpaGuards® Filter Cleaner/Degreaser removes body oils from your filter element.

Flush Your Tub's Lines Before Doing A Drain and Refill Next Spring

SeaKlear Spa System Flush works to alleviate odors and lessen chemical usage by flushing out your hot tubs plumbing system. Spa System Flush uses a unique blend of powerful natural products that eliminate organic wastes from the system.

Just remove your tubs filter(s) and pour half the bottle into the tub per 400 gallons of water. Remove your cover and run the tub on high speed for 30 to 40 minutes.

Can also be used on whirlpool tubs.

Cover Care Tips

- 1) Test your water on a regular basis. Improper water chemistry can cause your hot tub cover to mildew.
- 2) AVOID USING A RAKE, SHOVEL OR OTHER SHARP TOOLS TO REMOVE SNOW AND ICE. Use a Snow Brum (available at all Pool World locations).
- 3) Handle tie-downs, straps and handles with care because the cold conditions can cause the vinyl to crack or rip if not handled carefully.
- 4) As soon as the snow melts and the temperatures begin to get warmer apply a cover protectant and conditioner like 303 or Sunstar Cover Creme to the cover vinyl.

Clean Your Filters

When was the last time you **cleaned or replaced** your hot tub filters?

Did you know that your filters should be cleaned at least every 6 to 8 weeks using a good filter cleaner/degreaser and you should replace your filters every 1 to 3 years.

According to our computer records it's been over 2 years since many of our customers have replaced their filters. Old and dirty filters can lead to hot tub malfunctions and they also determine whether you're **soaking in clean or dirty water**.

Keeping your hot tub filters clean is key to **Preventing Costly Service Calls**.

Team & Club Reward Donations

We are dedicated to helping the Spokane/CDA communities and our Team and Club Rewards Program makes it easy for any person who purchases a hot tub, sauna or above ground pool from Pool World to designate a team, club or non-profit organization to receive a \$100 contribution from Pool World in that customer's name.

In the past four years we have contributed over \$22,000 to various local charities. This year the top recipients have been; the Spokane Humane Society, Kootenai Humane Society, Wounded Warriors, Union Gospel, Ronald McDonald House, Scraps, and Hospice House of Spokane.

This November and December we will be donating \$100 for each hot tub sold to Spokane Fantasy Flight!

Experience Silky ... Clean ... Clear Water

Make treating your hot tub simple and easy with no testing, no mixing, and no harsh chemical odors. Plus your skin will not be dry or irritated. Try SilkBalance today.

Your satisfaction is guaranteed or your money back.

Simply return the unused portion for a
FULL REFUND.

**FREE Auto-shipping
available**

Now available in 36 oz. and 72 oz. bottles

Want a Longer Swim Season?

Install a Heat Pump

Several customers have recently told me that they have been able to extend their swimming season an additional two months with the use of a heat pump on their pool. It's an affordable way to heat the pool and swim during months you typically could not afford to keep your gas or propane heater running.

A heat pump utilizes nature's free heat from the air to heat your pool water. Electricity is used to transfer that heat, but not to create it. Heat pump operation is significantly less expensive than gas or electric heating. It's a budget friendly, safe and trouble-free way to heat your pool.

A heat pump can be used on smaller aboveground pools or large inground pools. Heat pumps are available in a variety of sizes with an assortment of features so you can select the model that best suits your specific needs and budget. Call or stop in today and let us help you make the most of your swimming season with a heat pump that is smart for your budget and environmentally friendly.

Is your Ozonator Working?

If your ozonator is over 2 or 3 years old you may want to test to make sure it is still working properly. We carry a handy test kit to see if sufficient Ozone is present to aid in oxidation. The kit runs \$14.45 regular.
