**NEWSWAVES**

**NEW**

 HotSpring  
Portable Spas

## Custom SpaStone Cabinets

If you're considering a spa, but have concerns about integrating the spa into your backyard, stop in and see the new Hot Spring SpaStone Surrounds! With the Surrounds you can easily create a custom look that will fit your landscape beautifully, while enjoying all the benefits a Hot Spring Spa offers!

The SpaStone Surrounds come in full surrounds for free standing or half surrounds for partially recessed spas. They are available on the Vista or Grandee Custom Cabinet spas and come in either Earth or Gray stones to match your setting.

If the SpaStone is not the look you're looking for another option is to use an alternate exterior covering on a Hot Spring Custom Cabinet Vista or Grandee spa and side it with faux brick, faux slate, teakwood, aluminum, or brushed steel to create your own custom look. Stop in and talk to us about the many possibilities to create your custom look with the quality Hot Spring spas.

 Pool World

# Pool School

This year we are hosting a school in Spokane and a school in CDA the following night. Learn from the professionals. We will have a representative from BioGuard here to answer questions on pool opening, water care, pool maintenance, and filtration. Easy pool start-up starts with BioGuard.

Seating is limited so please R.S.V.P. 1-800-876-4340

Join us:

# Tips for Opening Your Pool

1. **CLEAN DECK & POOL COVER.** Remove leaves & debris to prevent them from entering the pool when the cover is removed. Pump any standing water off the cover.
2. **REMOVE POOL COVER.** Clean cover with a cover cleaner such as Stow Away and store cover away for the season.
3. **CLEAN POOL AND POOL EQUIPMENT.** Remove leaves & debris from equipment, skimmer, and pool itself.
4. **REMOVE WINTERIZING PLUGS FROM POOL EQUIPMENT AND POOL & INSTALL SUMMER FITTINGS.**
5. **FILL POOL TO PROPER OPERATING LEVEL.** The water level should be in the middle of the skimmer.
6. **DRAIN ANTIFREEZE AND RINSE LINES & EQUIPMENT.** Wipe any antifreeze residue from skimmer and pool equipment.
7. **CLEAN CARTRIDGE OR DE FILTER.** Use a product such as Strip Kwik to clean the filter if it was not cleaned in the fall.
8. **REASSEMBLE POOL EQUIPMENT.** (Double check to make sure equipment is clean and operating correctly.)
9. **START CIRCULATION AND FILTRATION SYSTEM.** Circulate pool 24 to 48 hours.
10. **CLEAN SAND FILTER.** Use a product like Strip Kwik.
11. **BRUSH & VACUUM POOL.** A critical but often overlooked part of spring opening, it's important to remove bacteria & debris.
12. **AFTER CIRCULATING 48 HOURS TAKE WATER SAMPLE TO POOL WORLD FOR COMPLETE TESTING.** Treat pool as needed.

If you would prefer to have your pool opened by the professionals, give us a call to schedule the opening and ask for:

**Brad, Matt or Owen at  
509-928-6585.**

## Balanced Pool Water makes for a clean, clear pool

The spring opening is a good time to balance the pool water for the season. This will prevent scale forming deposits or corrosion on your pool equipment and surface.

Bring in a water sample to any one of our four locations and we'll run a complete test. We then provide you with a computerized water analysis showing what's needed to balance the water.

Step by Step we can help you get the pool water balanced and ready for the season.

**FREE  
WATER  
TESTING**

- Bring sample in a clean pint size plastic container.
- Take sample 18" below surface.
- Do not take sample in front of pool return.

## Did You Know?

According to the American Red Cross, the most healthful swimming water temperature is 78 degrees.

## Filter Cleaning the Easy Way

We do the Messy Work for you,  
You Relax and Enjoy your Pool or Spa!

**Reduce-Reuse-Recycle  
Waste Stream Reduction**

# The Service Spot

**Pool World**

For your convenience we employ the area's largest, fully trained pool and spa service staff. Our crew is trained to meet APSP (The Association of Pool and Spa Professionals) standards. We have several CPO's (Certified Pool

Operator's) and one AFO's (Aquatic Facility Operators) on staff. We also employ nearly 20 licensed maintenance electricians.

Our goal is to provide you with dependable, quality service for your pool/spa. Our service department operates 5 days a week, year round.

## Inspect before Opening

Make repairs if necessary

When opening your pool be sure to inspect your pool and equipment for any broken or missing parts and replace them. Make sure the cover is on the Main Drain and is not broken or damaged. Make sure the drain is free of debris, a clogged drain requires the pump to work harder. Check to see that the skimmer weirs are in place and operational. Lube any o' rings before inserting them. Clean your pools filter with Filter/Cleaner Degreaser before starting the season. Check deck, Diving Board, and any other deck equipment for safe operation. Start the season out worry free.

509-928-6585.

## Water Exercise

To work on your chest, arms, and upper back use a bar float (available at Pool World). In waist deep water, stand with feet a shoulder width apart and position bar float in front of body. Grip bar with both hands in middle and retract elbows to bring bar up to chin. Repeat 10 reps - beginners, 20 reps - intermediate, 30 reps - advanced.

**Be sure and check with your physician before starting this or any exercise program.**

## Was this Winter hard on your Spas Cover?!

This winters snow load was hard on most spa covers if the snow was not removed quickly because the snow was full of moisture & heavy.

- If the vinyl on your spas cover is dry, brittle, or cracked it will affect the safety, heat retention, and cleanliness of your spa water. Repair is not possible and your cover will need replacing.
- If your spas foam cores are sagging, heavy, and puddling is occurring, it is most likely due to a broken core. Foam cores are critical to heat retention and safety. If your spas cover is over a year old it is not recommended to replace just the cores because the vinyl shrinks from exposure, making replacement very difficult.

## Order your Replacement Cover

\*See page 8 for Coupon Savings

There's a world of difference between a Sunstar Spa Cover and other brands. Insist on getting the most for your money.

Covers are custom made. 11 colors to choose from.
