# Better Health ... The Easy Way

For good health, practice good eating habits, exercise and use a sauna as part of your daily routine. It's a great way to make huge gains in your personal wellness. Burn calories, sweat out toxins, boost your immune system, enhance your blood circulation and relax your muscles. A sauna can help you improve your skin tone, increase collagen production and enhance your endurance performance. All of this in just 20 minutes or so a day and all while you sit and relax. What better way to achieve good health! Come in and check out Pool World's selection of quality Finnleo Saunas. For more information visit [www.finnleo.com](http://www.finnleo.com).

## Why Shock a Pool/Hot Tub?

The purpose of shocking a pool/hot tub is to oxidize materials that have a chlorine demand or form combined chlorine such as ammonia, amino acids, skin, mucus discharge, urine, suntan lotion, hair spray, leaves, grass and other organic material. Shocking prevents the formation of chloramines which are less effective disinfectants, the cause of eye burn and obnoxious odors. We recommend shocking a pool/spa once a week and whenever your chlorine test shows combined chlorine.

## Good Filtration is Key to Sparkling Water!!

Keeping your pool water clean and sparkling clear means making sure you have good filtration. If your water is not as clear as it should be check to see if:

1. You are running your filter long enough? We recommend you filter at least 10 to 12 hours a day at a minimum to maintain clear water. On extremely warm days when you have more people using the pool it may be necessary to run the filter more.
2. Is your filter media clean? When was the last time you cleaned or replaced the media in your filter? Chemical cleaners are available to clean Sand, DE or Cartridge filters. We recommend you do this at least twice a season.
3. Are your pool returns pointed downward and all pointed in the same direction toward the skimmer in the pool? This allows for the entire body of water to filter properly.
4. You are only backwashing your filter when the pressure rises 8 to 10 psi over your filters standard operating pressure? If you're backwashing more frequently you're washing away the filters ability to pick up fine particles because a little dirt in the sand helps it to pick up more.

## Lay-away for Spring Installation

If you need a pool renovation, new liner, pool pump, filter, heat pump, automatic cleaner or any other large items for your pool, lock in 2017 pricing and be one of the first to get their project done and ready so your swimming season isn't interrupted next year. Make monthly payments during the fall/winter to help pay down your final balance so it isn't such a large chunk out of your wallet all at once upon completion of your project!

Call us today to discuss your plans and arrange for a **FREE Estimate!**

Toll Free: 1-800-876-4340

Online: [www.poolworld.biz](http://www.poolworld.biz)

## WHY Balance Your Pool Water Before Closing

It's important to balance your pool water before closing it for the winter months. Closing a pool with water that is out of balance can cause problems on the pool surface such as scaling, staining and etching.

### **\*FREE Water Testing**

\*Some restrictions apply.

## *Tips for Closing Your Pool*

Wait until the water temperature is down below 60 degrees to close your pool.

1. Clean your pool. Brush, clean the waterline and vacuum.
2. Balance water.
3. Clean your pools filter using a filter cleaning product.
4. Add winter chemicals and circulate for 24 hours.
5. Lower pool water level below returns. If freezing temperatures are occurring do not lower level until you are closing pool down.
6. Evacuate water from lines and equipment.
7. Add rubber expansion plugs to prevent water from getting back into lines and equipment.
8. Cover pool.

To schedule your  
pool closing  
please call:

**1-800-876-4340**

OR

**509-928-6585**

The above pool was not winterized properly resulting in a cracked filter tank and plumbing lines.

## Extreme Protection ... Superior Performance

CoverLogix safety pool covers are an attractive and functional addition to your pool that will provide peace of mind by creating a protective barrier between your pool, family, friends and pets. Enjoy the comfort of knowing your pool is secure and that your spring opening will be much easier! A CoverLogix safety cover will be an investment you will wish you had made years ago!

## Should I use my Auto Cover as my Winter Cover?

This is a common question we are asked. In our area we advise against it. Although some people do, it is a gamble and we often see costly damage done to the cover and decks when

using an autocover. In warmer climates it is common to use the autocover as the winter cover and they work great, yet here Mother Nature can cause issues that make it impossible for your cover to withstand the conditions.

Investing in a winter safety cover is an investment that can save you from finding your auto cover and decks damaged like the one you see above.

# Hot Tub Cover Options

## Vinyl Hot Tub Covers

If your cover weighs about 200 lbs., making it difficult to use your tub, it's time for a new cover. The cover has lost its insulating value and is costing you more money on your energy bill.

If your cover puddles when it rains that normally means your cover has broken or bowed foam cores and you should replace the cover. Your cover is costing you money if heat is escaping through a torn hinge.

If your cover has a foul odor which makes enjoying your time in the hot tub less enjoyable, you need a new cover. A good cover makes a big difference in your hot tub experience.

Not all covers are made the same. We carry quality Sunstar covers. Give us a call or stop in today to order a replacement cover.

### Reasons to Insist on Sunstar

1. Steel Reinforcement for extra foam strength.
2. Tapered Foam Core.
3. Vapor Seal Wrap to help prevent mildew.
4. Exclusive GHSG Super Heat Seal Gasket.
5. Energy Efficient Virgin Foam Cores.
6. Triple Reinforced Tie-Down Straps.
7. Super Strength padded handles.
8. Double stitching on cover for extra strength.
9. 4 layers of vinyl in the Tough "n" Sturdy Hinge.
10. 28 Points of Internal Reinforcement.
11. Marine Grade Vinyl.
12. Full 3 Year Warranty on materials & workmanship.
13. UL classification with ASTM Safety Standard.

## Swim And Exercise Like The Pro's

Swimming is the ultimate exercise. Great for your well being both body and mind. For a superior swim-in-place experience, look no further than the iconic Endless Pools® Swim Machine. That's because Endless Pools uses a custom-made, hydraulically powered propulsion system that creates a laminar current of up to 5,000 gallons per minute (GPM) that is wider than your body and deeper than your stroke. Multiple conditioning grills smooth and redirect the water, resulting in a swim current that is free of turbulence. Even at full power, it feels like swimming in open water. Endless Pools Fitness Systems on display at all our locations. Stop in today and see them or better yet, try them out!

[www.endlessfitness.com](http://www.endlessfitness.com)
